

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Mile High Water Company Reporting Requirements Not Met

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

Our water system recently violated a drinking water requirement. Although this situation is not a public health risk, as our customers you have a right to know what happened, what you should do, and what we are doing to correct this situation.

Two samples were collected each month just not from each distribution system. Moving forward both will be sampled. . We were required to report information to the state drinking water program by 1/1/26, but failed to do so. We realize the importance of reporting information to the state to demonstrate whether or not your drinking water meets health standards.

What does this mean? What should I do?

- There is nothing you need to do at this time. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What is being done?

- Bac-T samples weren't collected in both distribution systems each month.

We anticipate resolving the problem by **2/25/25**. For more information, please contact **Fritz Fouts** at leafwaterservices@gmail.com or **303-895-6016**, or **PO BOX 434 Broomfield, CO 80038**.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
